# Recyclable Plastic

## Reliable Everyday Performance

Planet Choice™ recyclable plastic containers and tableware are designed for dependable strength, secure food handling, and everyday foodservice use. They provide a practical option for cold foods, prepared meals, catering, and grab-and-go applications.

## Designed for Recycling

Made from recyclable plastic materials. Recycling programs and accepted resin types vary by location, so customers should check local guidelines before disposal. Items should be emptied and cleaned when required by the local recycling facility.

## Solutions for Customers

Planet Choice™ recyclable plastic products give foodservice operators reliable packaging options that balance performance, presentation, and responsible material choices. The collection supports everyday operational needs while helping businesses work toward their waste-reduction goals.

# | Aluminium

## Reliable Heat Performance

Aluminum containers provide dependable strength and heat resistance for demanding foodservice applications. They are well suited for cooking, baking, reheating, transporting, and serving a wide variety of hot and cold foods.

## Recyclable and Practical

Aluminum is widely recyclable and offers a practical packaging option for busy foodservice operations. Recycling programs vary by location, so customers should follow local guidelines for proper preparation and disposal.

## Solutions for Customers

Aluminum products give restaurants, caterers, and commercial kitchens versatile packaging for preparation, storage, takeout, and delivery. Their durability, convenience, and professional presentation make them a reliable everyday choice.
